Control. Monitor. React.

Feel safe and protected with Secure Vision by InfoMetrics. There is a misconception that video surveillance solutions are simply for retail businesses and large organizations. InfoMetrics can tailor a surveillance system that is suitable for homes and small businesses in addition to retail and large organizations. Ensure the security of your home, farm, small or large business with an easy to use surveillance solution provided by InfoMetrics.

Security Anywhere

- Homes and apartment complexes
- Hospitals and health care facilities
- Retail stores
- Schools, universities and college
- Prisons
- Child care facilities
- Government buildings
- Farms and barns
- Recreational facilities
- Rural municipalities
- Nursing homes
- Public locations
- Construction sites
- Manufacturing and Industrial facilities
- Transportation (via mobile CCTV capabilities)

Benefits of Secure Vision

- Prevent loss of inventory or personal property
- Prevent damage to your premises and property
- Monitor traffic within your business for strategic product placement
- Monitor your home or facilities in the absence of supervision
- Monitor outdoor and public locations (parking lots, refuse sites, parks, etc.)
- Prevent threat of violence or harassment to employees or customers
- Reduce insurance premiums

Security Customized

Let the professionals at InfoMetrics customize a solution that will work for you. Consult with our sales team to devise a plan that will fit the needs of your home or location. We will work with you to customize a plan that will detail the number of cameras you will require, features you would like to include and where you would like to locate the cameras. We provide professional installation in addition to quality after sale customer service. Our video surveillance solutions are individualized to meet your specific security needs.

Feature Rich Solutions

At InfoMetrics, we believe in providing quality products that lend to quality results. Secure Vision video

surveillance solutions are available with a variety of features that can enhance the security of your location. Our systems are user friendly and feature rich.

- **DVR Recording** - Capture sensitive and important information for personal use and for use with authorities. Easily back up the information for archiving.
- **Real time monitoring** - Know what's going on, while it's going on with real time monitoring
- **User friendly video search** - Search for data by date, time, or by camera.
- **Remote System Viewing** - Remote monitoring allows remote viewing from anywhere in the world from an internet connected PC.
- **Black and White or Color Cameras**
- **Night Vision capability**
- **Wireless Camera Option**
- **Voice recording Option**
